We are committed to helping students develop 21st-century technology and communication skills. At the same time it is also important to ensure that we balance this with our duties towards our school, the community, our legal responsibilities and our reputation. The school respects privacy and understands that staff and students may use social media forums in their private lives. However, personal communications likely to have a negative impact on professional standards and/or the school's reputation are within the scope of this policy. Students are encouraged to secure expensive items and parents are appraised of the need to insure belongings.

CHEATING

Learning Alliance urges students to conduct themselves ethically and honorably. It is expected that the grade a student earns is based upon work that the student has performed. Cheating is considered an act of dishonesty. It harms the student who is involved and it harms the other students who do not cheat. We, therefore, will not condone nor will we tolerate any student submitting work that is not produced solely by the student's own initiative. Students caught cheating during tests will receive a "0" on that particular test. This includes students who allow another student to cheat or copy. Plagiarism from books or the internet is also a serious form of cheating which is forbidden. Students who submit work which is not their own will receive a "0" and possible disciplinary action; however, there must be clear, objective evidence of cheating for this policy to be applied, i.e. Cheat sheets, answers on hand, copied tests, copying from another student's test etc.

Fighting is not an acceptable alternative to dealing with disagreements among students. Students are encouraged to seek help from a counselor, teacher or an administrator if a problem arises. Fighting endangers the health and safety of students and disrupts the proper order of the school. Violation of this regulation will result in the suspension or immediate expulsion.

DEFAULTER SLIP

Damaging school property, insubordination, bunking, fighting and displaying disrespectful behavior towards the faculty or staff members can result in the issuance of a defaulter slip. DETENTION

Any student of Class III upwards may be detained after school, as and when deemed necessary. Please note that detention will require the student to stay back an hour or more after school. Parents will be duly informed by phone to avoid any inconvenience.

International Baccalaureate Primary Years Programme

PYP 1 – PYP V:

International Baccalaureate Primary Years Programme encourages facilitators to assess children as and when required on a diverse set of tasks to check understanding of concepts from a variety of perspectives.

TRANSDISCIPLINARY THEMES

The International Baccalaureate® (IB) Primary Years Programme (PYP) is underpinned by six transdisciplinary themes during the Academic Session around which learning is planned.

(August - November)

- 1. Who we are**
- 2. Where we are in place and time**

(November - February)

- 3. How we express ourselves**
- 4. How we organise ourselves**

(February - May)

- 5. How the world works**
- 6. Sharing the planet**

- Continuous assessment is an integral part of teaching. The use of assessment to judge the effectiveness of both teaching and learning processes is essential to allow teachers and students to identify their strengths and weaknesses and the effectiveness of the programme.
- The students are clear about the purpose and means of assessment and information about the purpose and format of summative assessment tasks is communicated to students and parents.

STRATEGIES

The following methods cover a broad range of approaches, from the more subjective and intuitive to the more objective and scientific. They provide a range of approaches and therefore aim to provide a balanced view of the child's learning.

OBSERVATIONS

All children are observed often and regularly, with the teacher focusing on a varying level, from macro to micro observation of the whole class to one child and also from a non-participant observation to participant observation, such as peer assessment.

PORTFOLIOS

Portfolios are collections of students' work that are designed to demonstrate successes, growth, higher order thinking, creativity and reflection. A portfolio should be thought of as an exhibition of an active mind at work. All PYP, portfolios, which include examples of self, peer and teacher reflections, are shown to parents at least three times a year, for example at Student-led/Parent Teacher Conferences.

OPEN-ENDED TASKS

These are situations in which children are presented with a stimulus and asked to communicate an original response. The answer might be a brief written answer, a drawing, a diagram or a solution.

SELECTED RESPONSES

Process-focused assessments are single occasion, one-dimensional exercises such as tests, quizzes and examinations. The students' skills are observed regularly and the observations are recorded.

PERFORMANCE ASSESSMENTS

These are assessments of goal-directed tasks with established criteria that are authentic challenges and problems. There are numerous approaches to the challenges/problems that require the use of many skills and there is rarely only one correct response. Audio, video and narrative records are often useful for this kind of assessment. Taken together, the assessment strategies form the basis of a comprehensive approach to assessment.

Whatever strategy is used, self and peer reflections are seen as an important stage in the learning process, with input by the teachers as well as the parents. Peer reflections include reflections completed

by students at different grade levels, and teacher reflections include those completed by teachers other than the homeroom or subject teacher.

PYP I:

For leaves extending more than one day, parents of class I students are to submit a medical certificate at the school office and drop off bags, latest by 9:00 a.m. for the teacher to send homework books and copies home. Please note that the school office will not be able to accept school bags if a student of class I has been absent for one day only.

PYP II – V:

THE EXHIBITION

Students who are in their final year of the Primary Years Programme (PYP-5) are expected to carry out an extended, collaborative inquiry project, known as the Exhibition, under the guidance of their teachers. They are given considerable flexibility in their choice of real life issues or problems to be explored or investigated in the exhibition. The exhibition is a culminating experience marking the

transition from PYP to MYP. It provides an opportunity for students to exhibit the attributes of the Learner profile that have been developing throughout their engagement with the programme. The exhibition is the culmination of the five year learning and sharing of a PYP student.

IB PYP CERTIFICATE

Successful completion of the IB PYP Exhibition is the natural gateway to the IB Middle Years Programme.

International Baccalaureate Middle Years Programme

MYP I – MYP V:

ACADEMIC HONESTY

Students are expected to display academic honesty and submit original and authentic work to the facilitators. All submissions must be completed by the student him/herself and must not be copied from the internet or from a fellow or previous student. Each source of research must be cited properly and responsibly. In case of non-compliance for the first time, a letter of warning will be sent to the parents. However, repeated non-compliance may lead to a grade zero on the assignment or even a failure in the subject.

STUDENT CONDUCT IN ACCORDANCE WITH IB LEARNER PROFILE

Students are expected to display the highest standards of conduct in their behaviour both inside and outside school. **Learning Alliance International** MYP places immense importance on good conduct and encourages all its students to adopt the ten IB Learner Profile attributes: Principled, Reflective, Open Minded, Balanced, Risk Taker, Knowledgeable, Caring, Inquirer, Communicator, and Thinker. All throughout the academic year, students will be observed and given feedback by their facilitators on their conduct and display of Learner Profile attributes.

REPORTING PERIODS/PARENT TEACHER MEETINGS

Learning Alliance International MYP has two reporting periods throughout the school year with reports being shared with parents and students in December and June. Final results for the subjects will be assessed at the end of the school year and will appear on the Final Report in June. However, MYP parents may discuss their child's progress with their teachers at the Student Led/Parent Teacher Conferences held thrice in a year.

AWARDS & RECOGNITION

Near the end of the academic year, students who display outstanding commitment to academics, athletics, community service or Learner Profile attributes, are awarded and recognized in front of parents, peers and the faculty.

MODERATION OF STUDENT WORK

The IB Team may opt to send the work of students of any MYP level to the IB Board for moderation to international standards. Therefore, all notebooks, portfolios, folders, videos, photographs, projects, models etc. must be maintained in presentable condition by the students and if required, to be submitted to the class teacher at the end of each academic year after the final assessments take place in June.

HOW WE ASSESS

1. **Internal Assessment:** Tools and strategies that teachers use in school to judge students' achievement levels. Every academic year is divided into two terms and at the end of each term these assessments will take place.
2. **Formative Assessment:** Tasks carried out on a regular basis that direct student behavior and help them develop necessary skills required to perform in summative assessments. These tasks are continuously added to the learning process, depending on teacher's judgement of student engagement.
3. **Summative Assessment:** Every discipline in every subject group has a task at the end of every unit. This task focuses on a subject specific assessment criteria to evaluate student performance.

The above mentioned assessments are all connected so that the teachers can use sound judgement and feedback, from time to time, to develop student skills in accordance with the IB assessment expectations and practices.

COMMUNITY SERVICE

Community Service (CS) is a fundamental part of the IB MYP and gives importance to life outside school, providing a refreshing counter balance to academic studies. CS is woven into the curriculum and each student must participate actively to stay in touch with the issues around the local community and become a contributing member of society. Parental support in this regard is critical.

LIFE SKILLS

At least 2 hours each week are allotted to students to learn a handy life skill. These skills may be acquired in school from a facilitator or an external expert invited to the school. In some cases, the students may be taken to a workshop or site outside school to enhance their learning. Each time students are taken outside the school premises, parents' permission will be taken in writing.

SUBJECT GROUPS AT EACH MYP LEVEL

MYP-I & II:

Eight Core Subject Groups, Library and Life Skills:

- All students are required to take Language and Literature (English), Language Acquisition (Urdu & French), Science, Mathematics, Individuals & Societies (History , Geography, Economics & Islamic Studies), Design, Arts (Music, Performing & Visual), Physical & Health Education.
- All students are required to take Library, Public Speaking, Community Service, Taekwondo and Life Skills lessons in addition to the above eight core subject groups.

MYP-III:

Learning Alliance International strongly believes in ensuring that all doors remain open for its students: may they choose to go abroad or stay back in Pakistan for their higher studies. Most of the top universities in Pakistan are accepting IB equivalence as IB MYP is recognized by the **Inter Board Committee of Chairmen (IBCC)**, a committee run by the Ministry of Education, Pakistan. However, there are still a few professional colleges (especially the state medical and engineering ones) that require students to have taken Cambridge International Examination (CAIE) of Urdu, Islamiyat, and

Pakistan Studies in order to obtain an equivalence certificate to gain admission. To this end, the syllabus of CAIE Urdu & Pakistan Studies will be introduced in MYP-III along with Islamiyat being continued from MYP-I. Three of these subjects will continue throughout MYP-IV and the first term of MYP-V till all LAI IB MYP students appear for the CAIE in the October/November session.

Eight Core Subject Groups, Library and Life Skills:

- All students are required to take Language and Literature (English), Language Acquisition (Urdu & French), Science, Mathematics, Individuals & Societies (History , Geography, Economics & Islamic Studies), Design, Arts (Music, Performing & Visual), Physical & Health Education.
- All students are required to take Library, Public Speaking, Community Service, Taekwondo and Life Skills lessons in addition to the above eight core subject groups.

MYP-IV:

New admissions will be taken only in the beginning of the Academic Session as a student must attend at least two complete years in MYP to attain the IB MYP Certificate. However, if the student is being transferred from an IB World School, the admission will be entertained in the middle of the academic session only after the student meets the required LAI IB MYP Achievement level.

FIVE COMPULSORY IB SUBJECT GROUPS

All students are required to take **Language and Literature** (English), **Language Acquisition** (French), **Sciences** (Chemistry and Physics/Biology), **Mathematics**, **Individuals & Societies** (History, Geography, Economics).

Optional IB Subject Groups:

- Students are required to choose ONE of the three optional subject groups being offered in MYP-IV: Design, Arts, & Physical Education.
- An Optional subject will be offered only if there is a minimum of 5 registrations.

Three CAIE Subjects:

The syllabus of CAIE Urdu, Pakistan Studies, and Islamiyat will continue in MYP- IV.

All students are required to take Library, Public Speaking, Community Service, Taekwondo and Life Skills lessons in addition to the above 5 IB core subject groups, 1 IB optional subject group and 3 CAIE subjects.

Personal Project:

In MYP-IV, students will be required to begin work on the Personal Project to be completed by the end of MYP-V. For most students, the Personal Project is their first large independent project outside of regular school activities. Students choose their projects with the support of the IB staff. Hobbies, sports, theatre, community service, culture, and entrepreneurship are among the popular categories. Many of their interests tie into family backgrounds, personal experiences, global issues, and more. It is a process that is undertaken outside the classroom but with the guidance of their assigned internal LAI IB supervisors. Therefore, parent support in this regard is crucial. The actual quality of a student's finished product is not the ultimate measure of success. Sometimes a project just does not work out, but if a

student can clearly demonstrate his or her learning process and an understanding of why something failed, the project can still receive high marks. Personal project offers invaluable experience that helps students with their academic careers and real life situations.

- Moderation of the IB Personal Project is compulsory.
- At the end of MYP-V, students submit their final Personal Project.

MYP V:

No new admissions will be taken in MYP-V, however, if the student is being transferred from an IB World School, the admission will be entertained only after the student meets the required LAI IB MYP Achievement level.

FIVE COMPULSORY IB SUBJECT GROUPS

Students will continue with **Language and Literature** (English), **Language Acquisition** (French), **Sciences** (Chemistry and Physics/Biology), **Mathematics**, **Individuals & Societies** (History , Geography, Economics)

Optional IB Subject Groups:

Students will continue studying the optional subject chosen in MYP-IV.

Three CAIE Subjects:

The syllabus of CAIE Urdu, Pakistan Studies, and Islamiyat will continue in MYP-V till October and students will appear for CAIE exams for these 3 subjects in October/November session.

All students continue to take Library, Public Speaking, Community Service and Life Skills lessons.

Electronic Assessments (eAssessments):

E-Assessments are two-hour onscreen examinations in five subject groups (**Language and Literature** (English), **Sciences** (Chemistry and Physics/Biology), **Mathematics**, **Individuals & Societies** (History , Geography, Economics) and **Interdisciplinary Unit**. These are externally marked by IB examiners.

Electronic Portfolio (ePortfolio):

Students also submit an ePortfolio of coursework for a performance-oriented subject group **Arts** (Physical and Health education, Arts, and Design) and Language Acquisition (French), which is moderated to international standards. These innovative assessments focus on conceptual understanding and the ability to apply knowledge in complex, unfamiliar situations. They offer robust and reliable assessment of student achievement in the MYP.

IB MYP Certificate:

Successful completion of eAssessments and the Final Project lead to the internationally recognized IB MYP Certificate and is the natural gateway to the IB Diploma Programme equivalent to the A Levels.

PARENTS' INVOLVEMENT

A major portion of work throughout the MYP will be research based. Parents' vigilance and close monitoring of children's internet usage at home will ensure that they remain focused on the task at hand.

CLASSWORK, HOMEWORK and MISSED WORK

All assignments done in class and homework are put up on Managebac and a weekly curriculum overview is uploaded to the student portal every Friday for parental viewing. In case of absence, parents are responsible for ensuring that their child completes all missed work. In case further assistance is required, parents may make an appointment with the MYP Coordinator.

SUMMER HOLIDAY HOMEWORK

Summer Holiday Homework must be submitted within ONE week of school reopening.

CO-CURRICULAR ACTIVITIES POLICY

The school has various mandatory and optional extra and co-curricular activities. It is compulsory for all students to attend mandatory activities. There is a wide range of optional activities which all parents must encourage their children to participate in. Students should explore all vistas of learning and must not limit themselves just to academics in order to become well rounded individuals.

ACTIVITY CLUBS AND SOCIETIES

There are a number of activity clubs and societies at LEARNING ALLIANCE. Students of class VI upwards are to participate in and become members of at least two clubs/ societies of their choice. Parents are also requested to motivate their children in this regard. These activities are not only good for physical and mental growth, but also instill the importance of teamwork, ethics and sportsman spirit. These clubs and societies may operate after school and on Saturday/ Sunday. The rules and regulations set specifically for each club/ society must be strictly adhered to.

COMMUNITY SERVICES

The LEARNING ALLIANCE Community Services (LACS) encourages students to be involved in community services and social work. This may mean helping out and playing an active role in improving the society in general, whether it is through planting trees, cleaning up communities, helping victims of natural disasters or raising funds through organizing events. This aspect of a student while in LEARNING ALLIANCE is considered very important not only to develop compassion but also towards university admissions. All students from class VI upwards are expected to participate in such activities.

FIELD TRIPS

LOCAL

Trips to local educational / recreational sites are organized for students to augment their knowledge base. Students are accompanied by their class teachers, guards, and maids. The commute is arranged by the school.

INTERNATIONAL

International field trips are organized for senior students to expose them to different countries and cultures. Also, these trips help children in gaining independence, confidence, and promote a sense of responsibility.

On school trips and otherwise as well, the administration takes all necessary measures and precautions to protect and safeguard its students against all eventualities. However, in case of an unforeseen emergency situation the administration may take any necessary action or change its plan of action for the wellbeing and protection of all or any of its students. This alternate plan of action may not have been previously communicated to parents. Fields trips, both local and international, are considered very important.
