Dear All,

Learning Alliance is excited to host your institute for a two-day **Virtual MUN@LA** on **22ND & 23RD October 2022**. Learning Alliance has always prioritized debate and free speech over other co-curricular activities as it helps develop free thought. Model United Nations uses speech as a medium to achieve peace and resolve relevant global issues.

Model UN conferences not only serve as a platform for public speaking but character building as well. One learns the art of diplomacy and problem-solving, and that is exactly what we wish to create; individual learning opportunities for our delegates by building the characteristics essential for success, communiqué, collaboration and poise. It is our hope that this experience will not only empower delegates to identify their voice but to gain enough confidence to be able to express themselves outside the virtual committee rooms.

We look forward to your participation.

Team MUN@LA
