INTRODUCTION

The management of LEARNING ALLIANCE is committed to providing a safe and orderly environment that enhances the educational process and groom each student to be a responsible and law abiding individual.

Our faculty consistently aims to impart knowledge and promote intellectual growth. The curriculum ensures that individual needs are catered to and that students have participatory, new, varied and stimulating experiences. The success of our students is not only ensured by examination results, but also by their involvement in various co-curricular and extra-curricular activities.

The policies and procedures outlined in this manual intend to make you aware of the Rules and Regulations that will help you and your child better understand the philosophy and ideology of this institution and become an integral part of it.

All the policies stated in this manual are governed by the School Board. Rules and Regulations contained within this publication are not all-inclusive, and the Board reserves the right to address other disciplinary issues and act in a fair and equitable manner. No attempt should be made by the parent to influence this decision. Any such attempt by parents in any form will be considered hostile and will be dealt with accordingly.
